Flavonols Found in Wine Linked to Lower Risk of Alzheimer's Disease

Wine spectator

A new study found that moderate wine consumption, as part of an antioxidant-rich diet, could reduce the risk of the degenerative disease

Harvest yield in Marlborough looking larger than originally predicted

Stuff

Warmer weather has been welcomed by the wine industry as harvest approaches, but with it comes challenges.

Australian winemakers testing new grapes to deal with global warming

Brisbane times

Australian winemakers are beginning to test southern European grape varieties that are better adapted to hotter temperatures and less reliable rainfall as they grapple with the physical impacts of a warming planet.

Coronavirus hits wine trade, with spending down and quarantine restrictions impeding travel

VINEX

As the coronavirus epidemic continues to spread through China, the wine trade is being hit hard by the slump in consumer spending in shops and restaurants, while quarantine restrictions threaten to hit international wine exhibitions.

Vino e ricerca, identificati 17 composti chiave dell'aroma durante il processo di invecchiamento

You wine magazine

Un nuova ricerca dell'UCO e dell'Università Gheorghe Asachi, ha identificato 17 composti chiave nell'aroma del vino durante il processo di invecchiamento con legno di quercia.

La vite di Susumaniello va attesa 10 anni

Civilta del bere

Il Susumaniello, dapprima ritenuto originario della Dalmazia, è più probabilmente figlio genetico del Sangiovese. Fra le prime realtà a credere in questo vitigno autoctono pugliese c'è Cantine Due Palme.
