OIV Awards: a recognition on the international scale, a reference in the vitivinicultural sector since 1930.

The OIV Award is a distinction set out in the OIV Rules of Procedure, granted each year by an international Jury composed of eminent personalities in the vitivinicultural world who represent the OIV Member Countries.

The Jury thus recognizes, with the OIV Award, publications of reference in each of the 11 categories open to competition. Its decision is absolute and based on consensus.

On the basis of the same evaluation criteria, depending on the competition and the qualitative level of the publications presented in the different categories, the Jury may be required to mention other books showing of a special originality by the subject, the adopted point of view, the daring of the author, and thus completes the selection by awarding “Mentions”.

Books in paper as well as interactive digital Tools : E-Learning, Websites are eligible for an Award or a Mention.
