

II.2.1.17 Fining using proteins of plant origin

Objectives

Use of protein matter of plant origin for the fining of musts in order to improve their clarity, stability and taste.

Prescriptions:

- a) The dose to be used is determined after a preliminary test trial. The maximum usage dose should be less than 50 g/hl. The dose retained corresponds to the sample which produces the sought after clarity and gives a better result for tasting.
- b) Protein matter of plant origin can be used with other admitted products such as tannins, bentonite, silica gel...
- c) Protein matter of plant origin must comply with the prescriptions of the *International Oenological Codex*.

Recommendation of the OIV:

Admitted
