GRAPEVINE VARIETIES' AREA BY COUNTRY, 2015

Content

These tables provide data available on the repartition of the surface area of planted grapevine varieties in 52 countries in 2015. This document focuses on all varieties, regardless of how the grapes are used (wine, table, drying or otherwise) and encompasses around 75% of the world's area under vines. Please note that this data tends to be more representative of wine grapes than of other varieties.
