

### **II.3.2.6 Tannin addition**

**Definition:**

Addition of tannins to wine.

**Objectives:**

- a) To facilitate the stabilisation of wines by partial precipitation of excess proteinaceous matter;
- b) to facilitate the fining of wines in conjunction with protein-type fining agents and prevent over-fining;
- c) to contribute to the antioxidant and antioxidasic protection of compounds of the wine;
- d) to promote the expression, stabilisation and preservation of colour in red wines.

**Prescription:**

The tannins used should comply with the prescriptions of the International Oenological Codex .

**Recommendation of OIV:**
